特有曲線圖 Specific curves

Pegasos TwinTropic CW使用F7/F5過濾後之供氣和排氣特性曲線圖
Pegasos TwinTropic CW supply and extract air characteristic curves with F7/F5 filters

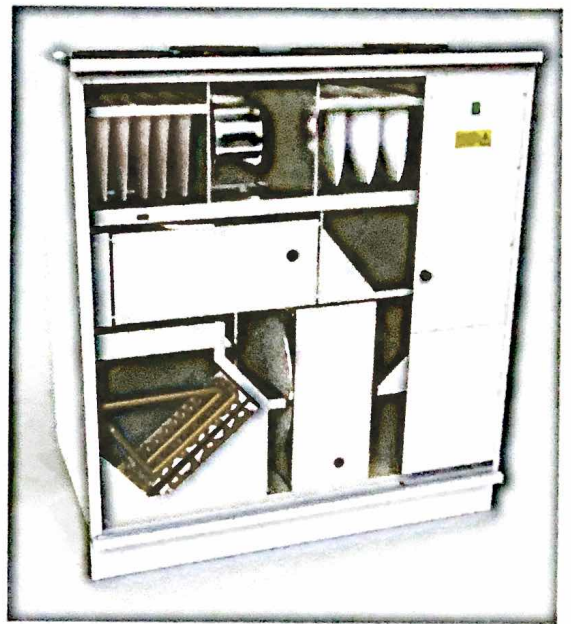

注意！如果裝置配有F7/ F7過濾排氣量會比以上曲線所表示之數值較小10-30%。

NOTE! If the unit is equipped with F7/F7 filters the extract air flow is 10-30% smaller than presented in the curve above

TwinTropic 設計團隊以一個輕巧及現代的設計為目標。使之能放置在適當位置而又不是美觀。

The TwinTropic design team made it their goal to design a unit as compact and stylish as possible. Almost good enough to display, the unit should be located in a suitable position to service the property correctly.
